

# Kicking The Gong Around

The Association

Three steps forward  
And two steps back  
Then count how far you come  
Is this what they mean  
When they say just to keep on  
Truckin' along  
Or is this what they say  
When they mean what they said  
When they meant  
Hey boy move on!

Git it on  
Git it off  
Git it up  
And then bring it all back down  
Brush your feet or comb your hair  
Stand on your head and run it all around  
There's a man you got to see  
Over on the southside  
If you want to keep  
Kickin' that gong around

When you chance to hear  
A certain ringin' in your ear  
Ya gonna know who's not at your door  
Big wind in the kitchen  
A rain in the hall  
He's a walkin' street corner  
Waitin' out on the porch  
Tie yourself to a baggage tag  
Move it out  
That gong needs a kickin' around some more
