Names, Tags, Numbers & Labels

The Association

Names, I know a man Who drowned his sorrows In the cheapest booze He knows he hasn't got That much to lose, wino

Tags, she's twenty-five She wants a family And a house to run Her sister always was The pretty one, lonely

[CHORUS]

Names, tags, numbers, labels
Are the people telling you what you are
You believe them as a rule
While my name for you is beautiful
Your name for me is fool

Numbers, there's no escape cause Time will do a number on us all Your age is scrawled across The office, old man

[repeat CHORUS]

Labels, you gave me mine
At the time, I took it casually
Is that all you really thought of me
Loser

[repeat CHORUS]
