

# High Time

## The Automatic

Concentrate hard  
We could make a start  
All you have will change

We should argue  
More than we do  
Brings life back to this place

Well i think it is high time that you stop  
Sitting around, figuring out what is happening

My defences  
Stop to game plan  
But what's the reasoning

Keep your focus  
And we could move on  
And stop thinking about all the things that we've done to ourselves

Well i think it is high time that you stop  
Sitting around, figuring out what is happening

Concentrate hard  
We could make a start  
oh oh

Concentrate hard  
We could make a start  
And all you have will change  
change change change change

change change change  
And do your.....  
When everything fell away  
oh

change change change  
And your.....  
When all you give you leave behind

Concentrate hard  
We could make a start  
oh oh

Concentrate hard  
We could make a start  
And all you have will change  
change change change change

change change change  
And do your.....  
When everything fell away  
oh

change change change  
And your.....  
When all you give you leave behind

Concentrate hard  
We could make a start
