

# Interstate

## The Automatic

I touchdown in a land under western sun  
Felt the heat on my back, yeah I felt at ease  
On the edge of the world looking out to sea  
At the start of my road I will take the leave

Oh, you know  
Where you go  
Interstate  
Interstate

At the end of the day I will count my steps  
Drink my poison down and sweat it out  
All I see is the dirt thrown up my trucks  
'Cause i take in the road, and i never stop!

Oh, you know  
Where you go  
Interstate  
Interstate

All you know  
Where you go  
Interstate  
Interstate

I take it off on you when  
It's not the bet you owe me  
After all you get away

Tear the signs down  
Put up your own  
Tear the signs down  
Put up your own

All you know  
Where you go  
Interstate  
Interstate

All you know  
Where you go  
Interstate  
Interstate

Tear the signs down  
Put up your own  
Tear the signs down  
Put up your own
