

# Love Is Just A Mystery

The Babys

You turn your back on me  
And you slam the door  
I burn my bridges  
Watch the players  
I know the score  
The starlings fly for winter skies  
Only the cold wind blows  
Love is just a mystery  
Like colors to the blind  
You always need  
A secret agent love  
You feel you've missed  
Once chance for the spirits  
Something stronger than a kiss  
Around the world  
The signal beams  
For others and their dreams  
Love is just a mystery  
Like colors to the blind  
Love is just a mystery  
Like colors to the blind  
Love is just a mystery  
Love is just a mystery  
Love is just a mystery  
Love is just a mystery
