## **Turn And Walk Away**

You still believe you love him I still believe Im right Youre lost and I can't find you Youre somewhere in the night Weve got nothing left to talk about This time it's goodbye But you can't hurt me anymore Ive no more chance to cry Walk away Gonna build our plans to start again Walk away Were gonna turn our backs on love And walk away Captivated by you Im reaching for your love Living in your shadow But that was not enough You don't seem to care about The reasons that I give Well go fall in love again Survivors always live Walk away Gonna build our plans to start again Walk away Were gonna turn our backs on love And walk away I love you I love you still I am broken by your words But I love you still Walk away Gonna build our plans to start again Walk away Were gonna turn our backs on love again Walk away Turn around Turn and walk away Were gonna turn our backs on love Walk away Turn around Turn and walk away Were gonna turn our backs on love Walk away Turn around Turn and walk away Were gonna turn our backs on love
