

Shakin'

The Band

The whole world shaking
Something must be going on
It's got the whole world shaking
Something must be going on
That's what I say
It's got that soul in it baby
You can't meet that beat alone

It's got the whole world shaking
And I'm talking 'bout that beat
It's got the whole world shaking
And I'm talking 'bout that beat
It's got that soul in it baby
You can't help but pat your feet

It makes you wiggle
It makes you move
Takes your body in the groove
Makes you holler
Makes you shout
Makes you wanna
Work it all out

It's got the whole world shaking
And I'm talking 'bout that beat
It's got the whole world shaking
And I'm talking 'bout that beat
It's got that soul in it baby
You can't help but pat your feet
