

# Fear Of Failure

## The Basics

Pictures of places  
Memories of faces  
Lost on me  
I see you running  
and I wonder how long 'til you  
Find your feet

I think you know  
What I'm thinkin'  
I know you feel it too  
All the pressure  
In the moment  
When you have to choose

Oh, you can bide your time  
For the rest of your life  
Keep your options open  
So you don't have to decide  
Are you waiting for excuses to materialize  
Or is it fear of failure

Everyone changes  
Workin' our way through these fallen leaves  
While the branches are breaking  
Can't help mistaking if I rest for the trees

I know there's no one  
Bad decision  
This just can't go on  
Stumblin' blind

Oh, you can bide your time  
For the rest of your life  
Keep your options open  
So you don't have to decide  
Are you waiting for excuses to materialize  
Or is it fear of failure

So you keep treading the same ground  
Forgetting that you found  
The faith you need  
You say your future's in limbo

With your head  
In the clouds  
Don't look down  
I am holding you up  
With my feet  
On the ground  
We can make sense of the pictures, places,  
memories, faces that we lost on the way

Well, you can bide your time  
For the rest of your life  
Keep your options open  
So you don't have to decide  
Are you waiting for excuses to materialize

Well, you can bide your time  
For the rest of your life  
Keep your options open  
So you don't have to decide  
Are you waiting for excuses to materialize  
Or is it fear of failure  
Or is it fear of failure
