

# Drop Me Anywhere

The Bear Quartet

I won't answer, alright  
It's not your problem  
Where I spent last night  
We're at each other much too close  
Any second one of us will explode  
I'm sorry too much said  
Don't do that, please come to bed

Let's say goodnight  
If we stay up we'll fight

Don't talk don't touch  
Don't leave me alone  
Just make this mess undone

I hear the birds sing somewhere  
In the cool morning air  
You might as well drop me anywhere  
I don't know what I'm doing here  
Above this ditch we're lying in

Let's say goodnight  
If we stay up we'll fight  
Don't talk don't touch  
Don't leave me alone  
Just sing it unsung

Let's say goodnight  
If we stay up we'll fight  
Don't talk don't touch  
Don't leave me alone  
Just sing it unsung
