

Stay Gold

The Big Pink

A time to love, a time to fly
And beat the darkness into light
We'll write our names across the town
Up is up and so is down

Forgive your lovers, but don't forget their names
And let their spirit remain
Stay gold (gold)
Shut the lights, for the rest to follow
Gold
Shut the lights, for the rest to follow
GOLD
Shut the lights, for the rest to follow

This ... just won't go
Come let the ...
...

Forgive your lovers, but don't forget their names
And let their spirit remain
Stay gold (gold)
Shut the lights, for the rest to follow
Gold
Shut the lights, for the rest to follow
Gold
Shut the lights, for the rest to follow

How fast the darkness, we disappear into the light
Follow the dark ...
In the end will be a better ...
And now I know I will not be saved
Unless I follow
And now I know I will not be saved
Unless I follow

Stay gold (gold)
Shut the lights, for the rest to follow
Gold
Shut the lights, for the rest to follow
GOLD
Shut the lights, for the rest to follow

If you leave I will follow

Stay gold (gold)
Stay gold (gold)
