

## Merry Merry

## The Bird and the Bee

Wise men  
Better get themselves together  
There's a place that they've got to be  
Gather up some frankincense in that residence  
And put it underneath the Christmas tree  
Hey, you  
I know there's been a ton of stormy weather  
Jesus, what else is there to say?  
So much has happened now, it's just got to get better  
Why not start it up with Christmas day

Merry, merry, merry, merry  
Merry, merry Christmas  
Merry, merry, merry, merry, merry  
Merry, merry Christmas

Who was  
A partridge in a pear tree  
I don't need any more golden rings  
I'm not dreaming of a season of white weather  
I'm just wishing for the world to see  
Come on over  
And I'll open up my door  
Don't let me in [?]  
Something of fashion with horses and some dashing  
And we'll go [?] all the way

Merry, merry, merry, merry  
Merry, merry Christmas  
Merry, merry, merry, merry, merry  
Merry, merry Christmas
