

## Promise Me

### The Birthday Massacre

We don't know what time we'll be there  
But we won't show up till later  
It will all look so much nicer  
After all of us arrive

Promise me to pass the time  
Dance with me on plastic tears  
Kiss me We won't feel alone  
Till morning when we disappear

Though we all want to be noticed  
There's no need for competition  
Cause there's just no way of knowing  
Where the camera points tonight

Promise me to pass the time  
Dance with me on plastic tears  
Kiss me We won't feel alone  
Till morning when we disappear

We don't listen to each other  
Cause we're all too busy talking  
We'll tell lies about each other  
Cause the truth is such a bore  
With the threat of dawn approaching  
And our interest quickly fading  
We will stumble home together  
As we did the night before

Promise me to pass the time  
Dance with me on plastic tears  
Kiss me. We won't feel alone  
Till morning when we disappear
