

## Mission District

### The Black Angels

You only love yourself  
You only care for you  
I think I hit the truth

Better days will come  
Other scenes to get on  
You watch your village cave in, kid

You only see one way  
And I don't feel the same  
You make it hurt honey

Easy figure of groove  
Modern mistress of fire  
For me to train, say my name

Who are you?  
Who are you?
