

# Sleepyheads

The Black Crowes

Get up,  
All my little sleepyheads  
Rub your eyes,  
Get out of bed.  
But Don't stop dreaming  
Get up,  
Say good morning to the sun  
It is there for everyone  
And don't stop dreaming, stop dreaming  
No No No  
Well, its another lovely day, let's take our daydreams out to p  
lay  
Let's keep the sandman far away, today he's not invited.  
And I never felt this way, I was alone.  
And now it's a bright and sunny day.  
And everybody's singing, and gone is the rain behind my eyes  
Give thanks and blessing, come join me in blue skies  
It can turn your whole world upside down  
Goodnight, all my little sleepyheads,  
Remember the wise eye said  
Said don't stop dreaming  
Lights out, be quiet as a mouse, try to keep the bedbugs out  
And never stop dreaming, stop dreaming  
Well, its another lovely day, let's take our daydreams out to p  
lay  
Let's keep the sandman far away, today he's not invited.  
Cause I never felt this way, I was alone.  
And now it's a bright and sunny day.  
And everybody's singing, and gone is the rain behind my eyes  
Give thanks and blessing, come join me in blue skies  
It can turn your whole wold upside down  
Well, its another lovely day, let's take our daydreams out to p  
lay  
Let's keep the sandman far away, today he's not invited.  
Cause I never felt this way, I was alone.  
And now it's a bright and sunny day.  
And Eveybodys singing, and gone is the rain behind my eyes  
Give thanks and blessing, come join me in blue skies  
It can turn your whole wold upside down
