

# Prepare For A Wound

## The Blackout

Whoa

Let's go, let's go!  
Come on baby let's take this from the top  
I Know I Know  
We can make it just don't tell me to stop  
Your My Hero  
Never used to say just give it up  
I won't let go!  
One more time and I know we got tonight

We're falling down whoa oh

This isn't the first time, you won't be the last  
Tonight that I'm coming for you, girl!  
This isn't the first time, you won't be the last  
The city's almost got you burned

Let's go, let's go!  
You know I love the way you love to front  
I Know I Know  
What you got I know is what I want  
Your My Hero  
So say the word and we will start again  
I won't let go!  
It's nothing to lose but all to gain

We're falling down whoa oh

This isn't the first time, you won't be the last  
Tonight that I'm coming for you, girl!  
This isn't the first time, you won't be the last  
The city almost got you burned

This town will never let you leave  
This town will be your final grave

This isn't a violation!  
This is a celebration!  
This isn't a violation!  
This is a celebration!

This isn't the first time, you won't be the last  
Tonight that I'm coming for you, girl!  
This isn't the first time, you won't be the last  
The city almost got you burned

This isn't the first time, you won't be the last  
Tonight that I'm coming for you, girl!  
This isn't the first time, girl!  
Time, time  
Whoa
