

Baby I've Got Time

The Blue Van

It's late
Where do you wanna go?
I've gotta get a pack of States
And a drink for the cold

Do we have the time?
Do we have the time?
We'll listen to this song and then we'll go
The wind is howling high

Lets get inside
I'll get the first round
I think I see a friend
I guess I'll check it out
But there's my sunshine, my yesterday
I touch her lips and the I say

Baby, we've got time
Baby, we've got time
I've tried it all before but you took me in
And baby, I've got time
For you
