Mental Bits

The Bouncing Souls

The sun is shining in the breeze free from all the world's worries I'm walking with the city's beat under the palms swinging in the tree

Move out, move on Life is here, singing her song Move out, move on The sun is shining as we walk along Move on

We've been singing a worried song in our hearts now for so long All of the past, it can't be wrong let's let it go, and move along

Move out, move on Life is here, singing her song Move out, move on The sun is shining as we walk along Move on

The sky is always on my side trouble's part of my joy ride Drama's crash, emotions clash we have to live with the past

I'm gonna take the scenic route battle the traffic with a better view It's better not to fight alone altogether lets move along

Move out, move on
Life is here, singing her song
Move out, move on
The sun is shining as we walk along
Move out, move on
Life is here, singing her song
Move out, move on
The sun is shining as we walk along
Move out, move on
