

Feels Like Right

The Brand New Heavies

This feels like, feels like, like right
It's not just another everyday night
When we get together, baby, sparks fly
It's more than a friendship, it's deeper than that
Like the force of an engine, on a jumbo jet

'Cause when we get close
It's just like a high
And then before we know
It's only you and I

This feels like right, tonight
'Cause the love we make is passion
And we can't deny that burnin' fire

This feels like right, tonight
When we get this close to heaven
It's a paradise so hard to find

It's somethin' we're keepin' just between us
But there are no secrets whenever we touch
It don't take a psychic or readin' a book
You know that we like it 'cause baby, it's all good

And when we get close
It's just like a high
And then before we know
It's only for you and I

This feels like right, tonight
'Cause the love we make is passion
And we can't deny that burnin' fire

This feels like right, tonight
When we get this close to heaven
It's a paradise so hard to find

This feels like, feels like, like right
This feels like, feels like, like right

This feels like, feels like, like right
(This feels like right, tonight)
This feels like, feels like, like right
(This feels like right, tonight)
This feels like, feels like, like right
(This feels like right, tonight)
Oh, it feels like right
