

Society's Fools

The Bruisers

In this day and age today
Our rights are taken all away
Working to get by in life
Papers try to crush our size
Made to be an enemy
Don't have a say in society
In days to come we'll have our turn
We're fighting so we get heard

Always try and grind us down
Hand in hand our goals are sound
Brothers of the working class
It's all our strength you can't surpass
Day to day fighting all your lies
We've got to stop this yank despise
Now I will tell you we won't die
We're fighting so that we survive

Sometimes airing front page news
We won't surrender to such fools
