

# The Way It Goes

## The Bruisers

He bought the car for 500 bucks  
It took every cent he had  
With a cross taped to the dash for luck  
Never wanted anything so bad  
Nobody knew he left town that day  
Cause they never know he was there  
The funny looking kid with the cheap tattoos  
And grease stuck in his hair

But he just said  
That's the way it goes  
When you're around nobody knows  
And when your gone life goes on  
With a loveless heart and a tank full of gas  
He headed out onto the overpass  
Gonna take that road wherever it goes

That was 4 or 5 years ago  
And that old car's running still  
He thinks about going back sometimes  
But he knows that he never will  
He's been playing with fire and he's been burned  
And it's got him feeling low  
He just laughs and turns the radio on  
Cause that's the way it goes

But he just said  
That's the way it goes  
When you're around nobody knows  
And when your gone life goes on  
With a loveless heart and a tank full of gas  
He headed out onto the overpass  
Gonna take that road wherever it goes

He pulled into town around 9 o'clock  
And that's when that old car died  
On an empty street with no cars in sight  
He just pushed it to the side  
He looked up and saw that girl drive by  
He just turned and watched her go  
She was the best damn girl he'd ever seen  
He just laughed cause that's the way it goes

But he just said  
That's the way it goes  
When you're around nobody knows  
And when your gone life goes on  
With a loveless heart and a tank full of gas  
He headed out onto the overpass  
Gonna take that road wherever it goes
