

## I Figured Out

### The Cardigans

He showed me around  
To be found alone  
He cleaned his room  
On his own to be known

So, I figured out  
With no doubt  
What he was about  
In his room  
On his own

You say "don't worry"  
But did you ever see us  
What he does, bothers  
You say "don't worry"  
But did you ever see us  
What he does, bothers

He showed me around
