

## Poppy

### The Cats

If the mountain were not high If the road were not so long If the sun out in the sky Didn't burn so hot and strong Would you move on Just to keep you distance

Like a mountain queen on a throne Like an angel high in the sky  
Like an eagle out there alone Looking down from way up high Maybe some day to come We will be together

Poppy come down to the valley Where the flowers are growing Poppy come down to the valley Where the rivers are flowing I'll build a home in the sun I'll plant you a tree to give shade Our children will grow and have fun Oh poppy how long must I wait Before you will love me
