

# It's Time For Love

The Chi-Lites

Showed that I loved you  
When you gave me your heart  
I love you too much  
To ever tear it apart

When I kiss you, dear  
The Earth moves under my feet

And church bells ringing  
The angels singing  
Church bells ringing  
And the angels singing

Be by my side  
Forever and forever  
Just you and me  
Just you and me

It's time, time for love  
Baby, it's time, time for love

You have the flowers blooming  
In the middle of the night  
(Missing line)  
While I'm holding you tight

You are the answer  
To why I cannot sleep

And church bells ringing  
The angels singing  
Church bells ringing  
And the angels singing

Wherever you go  
I'll be there in the shadows  
Just waiting for you  
Just waiting for you

Baby, it's time, time for love  
The clock on the wall will tell you  
The look in my eyes will tell you  
It's time for love

Baby, it's time, time for love  
Oh, it's time, time for love...
