

Light Me Up

The Coronas

Have you had enough?
'Cause we're losing all the things that made us good
But I'd never deceive, no I'd never deceive you, love
At least we agreed to disagree on that ah

Am I freaking out?
'Cause I'm screaming all these things inside my mouth
I wanna believe, yeah I wanna believe them now
You don't have to say if we're having a good time

You tell me I made it
But I'm feeling kinda strange
Can I get a reaction?
Give me something I can say?
If I could just find it
I think it's somewhere in my flaws
You don't mind it though
You just light me up

Oh can I press restart?
I couldn't ever miss the changing of your heart
Well I don't wanna believe, I don't wanna believe, I want
Remember when you said we'd never fall apart? Oh

Am I just scared?
That I'll never be as strong without you there
Everything we build has got me on repair
But we never give up, no we never give up on us oh

You tell me I made it
But I'm feeling kinda strange
Can I get a reaction?
Give me something I can say?
If I could just find it
I think it's somewhere in my flaws
You don't mind it though
You just light me up

You don't mind it though
You just light me up
You never tried to cut me off
You always liked the way I talked
You don't mind it though
You just light me up
Is it something that you saw?
I think it's somewhere in my soul

You tell me I made it
But I'm feeling kinda strange
Can I get a reaction?
Give me something I can say?
If I could just find it
I think it's somewhere in my flaws
No you wouldn't have minded
No you wouldn't have minded

You tell me I made it

But I'm feeling kinda strange
Can I get a reaction?
Give me something I can say?
If I could just find it
I think it's somewhere in my flaws
You don't mind it though
You just light me up
