

Treasure

The Cure

She whispers "Please remember me When I am gone from here"
She whispers "Please remember me but not with tears"
Remember I was always true,
Remember that I always tried,
Remember I loved only you,
Remember me and smile

For it's better to forget
Than to remember me
And cry
Remember I was always true
Remember that I always tried
Remember I loved only you
Remember me and smile

For it's better to forget
Than to remember me
And cry
