

# Thanks for the Night

The Damned

Well thanks for the night  
The swag and a lovely affray  
Thanks for the night  
You give and we take it away

It was a smash and grab conflagration  
An all night show and we weren't nabbed  
A thrill for one and all, a ball  
Join us or be a fool  
Thanks for the night

Well I know a place  
Where we can have fun tonight  
Yeah I know a place  
Where we can be one tonight

Old Bill & Ben and all his friends will be there  
Standing in a row  
The News At Ten and ITN will be there  
Don't be slow

The fires ignite  
All down the road  
The scene explodes and I say  
It's been alright  
Thanks for the night  
A fine affair  
The marks are there  
And we don't care 'cause I say  
It's been alright  
Thanks for the night
