

A Little Bit of Love

The Dave Clark Five

I can't explain
How I feel every time you go away
Just a little bit of love
Goes a long, long way

There was no one
Who meant more to me than anything I know
Just a little bit of love
Goes a long, long way

You used to tell me
That a love like ours could never die
And now it's over
And the things you once said
Have suddenly changed into lies

If you'll come back
I'll forget my pride and take you back again
Just a little bit of love
Goes a long, long way

You used to tell me
That a love like ours should never die
And now it's over
And the things you once said
Have suddenly changed into lies

If you'll come back
I'll forget my pride and take you back again
Just a little bit of love
Just a little bit of love
Goes a long, long way
