

Call To Arms

The Defiled

These times have changed there's no hope here in this town
The orders gone we're left here all alone
We're trapped inside, we're godless, beaten and we're broken
It all ends now is it time for change?
We'll Burn down
Justice by our own hands
We will fight
But can we be self-made heroes?
Call to Arms, it's in our hands, we're not helpless anymore
Call to Arms, defend the fallen, we won't take it like before
Call to Arms, we'll change the system from the inside out
Call to Arms, it's our turn now, we'll reclaim the streets again
It's our turn now the uniform means nothing
Outlaws emerged to even out the score
Cover ourselves protect the weary and forgotten
Show our futures with the edge of a knife
We'll Burn down
Justice by our own hands
We will fight
But can we be self-made heroes?
Call to Arms, it's in our hands, we're not helpless anymore
Call to Arms, defend the fallen, we won't take it like before
Call to Arms, we'll change the system from the inside out
Call to Arms, it's our turn now, we'll reclaim the streets, we'll
reclaim the streets again
We'll reclaim the streets again
Call to Arms, it's in our hands, we're not helpless anymore
Call to Arms, defend the fallen, we won't take it like before
Call to Arms, we'll change the system from the inside out
Call to Arms, it's our turn now, we'll reclaim the street again
, we will reclaim the streets again

Call to Arms, we'll change the system from the inside out
Call to Arms, it's our turn now, we'll reclaim the streets, we'll
reclaim the streets again
