

Switchblade

The Devil Wears Prada

Take it all back
Because you know that

You are no victim
You are a cemetery
Rotting out and bathing in your privilege
Your privilege

Take it all back
Cause you know that
I'm a switchblade through the headlines

Await the moment when
We drive a spike
A spike to tear the
Sternum of your fiction

Take it all back
Cause you know that
I'm a switchblade through one more time
Take it all back
Cause you know that
I'm a switchblade through the headlines

Curb your pleasure
Ground your dreams
You want to watch me
To watch me bleed?
Curb your pleasure
Ground your dreams
You want to watch me
To watch me bleed?

Curb your pleasure
Ground your dreams
You want to watch me
Watch me bleed?
Curb your pleasure
Ground your dreams
You want to watch me
Watch me bleed?
