

Parasitic Twins

The Dillinger Escape Plan

I feel the world fall from the inside
It's coming down
My beating pulse crawls to a strange height
Please calm it down
I need a strong pull from your little lies
Or I'm going down
As I built it all up from the inside
And you burnt it down

Cause when you took your love away
You let go

I feel the world fall from the inside
It's coming down

Although I miss you I'll never say I do
Bleed like the rain that's falling
Cut me through and through

I'd seen it all hiding in plain sight
And I held it down
But I'll give you all that you deserve tonight
Cause you earned it when you burnt me down

Cause when you took your love away
You let go

I feel the world fall from the inside
It's coming down

Although I miss you I would never ever say I do
Bleed like the rain
Like the rain that falls upon my skin

Then you just gave our love away
You just let go
Bleed like the rain that falls upon my skin
