

## Arrival

## The Dirty Heads

We found was a place we could  
Go to get away from ourselves  
When we found it, it was broken  
Wanna stay here and fix it with me  
Wanna stay here and fix it with me

Out here we are  
Out here we are  
Out here we are  
Out here we are  
Out here we are  
Out here we

We arrive and  
I know nothing  
I owe nothing  
We owe nothing now

And now it's ours and we rebuilt it  
It's a place for me and you  
Won't you come back when you feel it  
I'll be waiting right here for you
