

## Traps

The Dykeenies

I'm sorry I can't be  
What it is that you need from me  
But I'm caught up in things  
That I couldn't change if I wanted to  
Beneath all these colours  
I'm poorer than dirt girl  
If you help me through this  
I'll hurt you I promise

These lights are too bright  
It's showing me up tonight  
You cut me with your hurt  
And throw me like paper

You tiptoe and you open up your eyes to me  
But I'm blind to it as far as I can see  
You want more but more is just a word to me  
Because words like wars but we need to breathe [x2]

Do you need any other things that I need?  
Don't get caught in a trap  
Because you'll never find your way back

And I never said let's pretend to be awkward  
But we're both caught up in ourselves  
It's too late to turn back now  
Nothing's forever  
Let's try and remember  
Let's leave and not have to pay to live here

You tiptoe and you open up your eyes to me  
But I'm blind to it as far as I can see  
You want more but more is just a word to me  
Because words like wars but we need to breathe [x2]

Do you need any other things that I need?  
Don't get caught in a trap  
Because you'll never find your way back [x2]

Do you need any of the things that I need?  
It's all for me  
Don't get caught in a trap  
Because you'll never find your way back
