

# Every Night's Another Story

The Early November

Make your way down the face  
Of everything we know  
And go so far see other places  
And other people I won't know about

Breathe in deep, let it out slow  
Did you hear it's all my fault again  
I know why no one else knows  
why I am all alone again

Make it sound so good that I won't be right  
And I walk alone tonight  
Outside my house and outside my mind  
No matter what I say, I'm never right

Breathe in deep, let it out slow  
Did you hear it's all my fault again  
I know why no one else knows  
Why I am all alone again

Breathe in deep, let it out slow  
Did you hear... GO GO GO!  
(2x)

Breathe in deep, let it out slow  
Did you hear me just GO GO GO!

(Breathe in deep, let it out slow  
Did you hear... GO GO GO!)

Well I will wait for you for days  
Well I will wait for you for days  
Well I will wait for you forever  
(2x)
