

My Sleep Pattern Changed

The Early November

I hear your angel voice
It makes me feel so nice
I like to sing along
Along and forever

I know wrong and right is gone tonight
Nah na na na na na na na...

I hear your angel words
Inside and overheard
I'll fall in love tonight

The one time I go high
I know wrong and right is off tonight
Nah na na na na na na na...

I hear your angel song
I hope I sing along
