

Struggle Like No Other

The Epoxies

Oh Oh Oh Oh
Hush it's not safe to talk
That terminal could be switched on
The IBMs could monitor
And flag the things we say
Make sure you keep your cover up
And cover up your TV
When you call me
And make sure you watch your TV every day
And take nothing for granted
It's a war always remember
It's like holding back the ocean
Trying to hold onto your mind
Don't forget the reason
Why you started in the first place
It's a struggle like no other for the fate of humankind
[repeat]
And take nothing for granted
It's a war always remember
It's like holding back the ocean
Trying to hold onto your mind
Don't forget the reason
Why you started in the first place
It's a struggle like no other for the fate of humankind
The fate of humankind
(4x)
