Rescue Me

The Escape Club

Spinning around to the siren sound of the city
Oh, but underground, I can feel the real decay
Into the night, I'm only waiting
I'm waiting for the day, yeah

Oh whoa, if I ever leave this stormy island
'Cause if I close my eyes, how could I see?
But if I left my hope with you forever
Would you rescue me?

I walk on glass with a crashing heart and I'm shaking
And the pressure builds as the countdown starts to play
Into the night, the news is breaking
I'm waiting for the day, yeah

Oh whoa, if I ever leave this stormy island
'Cause if I close my eyes, how could I see?
But if I left my hope with you forever
Would you rescue me?

And if I left it all with you
(Would you rescue me?)
Ah, but how I wish my life away
Ah, but how can I stop this stone from sinking?
(Would you rescue me?)
I'm waiting for the day, yeah

Oh whoa, if I ever leave this stormy island
'Cause if I close my eyes, how could I see?
But if I left my hope with you forever
Would you rescue me?

(If I ever leave)
(And if I ever leave) Rescue me
(And if I ever leave today)
(Just to light the fire, would you be here?) Rescue me
(And if I'm wanting to be free)
(Would you ever rescue me?)
(Would you ever rescue me?)
(Would you ever rescue me?) Rescue me
(Would you ever rescue me?)
(Would you ever rescue me?)
