

# Irreversible

The Exies

Turn, turn away  
The first time, I can't say  
But heaven knows, I'm fading  
Before I go  
Into these old shoes  
I kissed away, all my years

Irreversible, always on my life  
Irreversible, stuck in overdrive

One, one way ride  
To the stars, of your eyes  
To slip away, inside  
Across time all gone  
Saw the light of the wrong  
Touch your skin, I cave in

Irreversible, always on my life  
Irreversible, stuck in overdrive

But before I leave her  
There is something you should know  
How I feel our love will  
I'll take out  
Within my sight  
Lose all my sight

Irreversible, long it's on my life  
Irreversible, stuck in overdrive  
Irreversible, how it turns my life  
It's you and I  
It's you and I  
It's you and I
