

## What You Deserve

The Exies

Falling and unsure why am i losing my nerve  
Wasting my time why do i only see this through the hurt

I cant get it out of my head i cant get it out that  
I do this to myself me and noone else  
So help me tell me how to break free  
Im to blame and thats what really hurts  
Thats what really hurts  
You get what you deserve

Jaded and broken  
Out of place waiting my turn  
Guilty fractured  
And like you i dont know the answer

I cant get it out of my head i cant get it out of my head  
I heard the words you said to me

I do this to myself me and noone else  
So help me tell me how to break free  
Im to blame and thats what really hurts  
Thats what really hurts  
You get what you deserve
