

Another World

The Faint

Plastered to the background
Shadows on your eyes
Every time you almost see it
Motion makes you blind

Camera tracking backwards
To focus on your face
Full exposure, perfect terror
Memory erased

If I had your contact
If I knew your name
Could I find you? Maybe know you?
Help you play the game?

Let me be the answer
Day turns into night
Information
Profligating
Terminate the light

Another world
Caught between
Can you feel?
What it means

Staring through your window
Looking at the sky
Did you notice something funny?
Something not quite right?

First the stars were dimmer
Then the moon turned green
Are you here or are you somewhere
You cannot relate

Another world
Caught between
Can you feel?
What it means

Another world
Caught between
What it means
What it means

Caught between
Another world
Am I here?
Am I safe?
