## The Passives

The Faint

Left eye spins in circles
Passives line the rail
They get no satisfaction
From the electro-static breaks
A beat can't cut the passives loose
They're afraid what we will say
No harm is done when you try it then hide
Parts moving - keep moving

A cool collected life is a safe move You heard that You're unsure but it's clear to us Come to terms, you're alone here observing Every time you go out you observe

Walk past collared passives Don't look toward their eyes It adds to their discomfort Shows there's some confidence they miss

A cool collected life is a safe move You heard that You're unsure but it's clear to us Come to terms, you're alone here observing Every time you go out you observe
