Took my life slower So as not to fall over, no There's living for free I'm going to save some for thee I'm going to save some for thee Each day I try harder To say what I'm thinking I know as the time slips away I savor it's coming** With much more to say With much more to say The slower I take it The easier it gets me, yeah There's living for free I'm going to save some for thee I'm going to save some for thee As much as I carry Is as much as I'm giving You see, not much for some But a great deal for me The slower I take it The easier it gets me, yeah There's living for free I'm going to save some for thee I'm going to save some for thee
