

Big Puzzle

The Flower Kings

Face to face with the iconized
picked me up when I was falling
Once the dream revealed his face
he turned around, now he's calling

Two worlds, two lives in this dream
down the river of time together
Two birds fly into the sun
to unite in this dream forever

He said, "Son of mine, whom I idolize
your very first smile touched my heart
I'll be by your side in the darkest of nights
when this nightmare got a grip on your heart"

Big Wheels of evolution, round & round, around we go
out of chaos and confusion, make our way into the flow
One step and one more closer, man move in every way
high hopes, a new direction, a new level everyday

Don't know where we're coming from,
don't know where we're going to
another trick of evolution, into the cosmic revolution

Every night when I'm watching the sky,
look for big ships passing by
I'm out on my own, you may say that I'm alone
and I wish that someone would take me home

Man build big machines, sail across the skies
Rope ladder to the moon, the nighy have a thousand eyes
Now children hurry home, to the million dollar dream
Still life in TV land U-tutor in extreme

Don't know where we're coming from
don't know where we're going to
another trick of evolution, into the cosmic revolution

Every night you look down from a star,
here I'm stranded with my blue guitar,
don't know if it's real but I know what I
feel and I feel it's time for spinning the wheel

But what can I do or what can I say to stop the world
from turning
I can always wish you'll believe me when I
say we get closer the more we're learing
We were born in the sparkling ignition of lust
once in the timeless soul found a home
This puzzle grand is not of this earth
You know well, you can't make it alone
You can't make it alone
