

Going Up

The Flower Kings

You have it all - but still you crave for more
So many unseen wonders - crossing borders
And in knowing how this game can begin
Not going back - you're not going back
Those who follow from beginning to end
From the river docks to the mountaintops

We're going up to rise up again - We're going up
We enter this new state of mind - They can not
Can not bring us down - cause the only way is up
We're going to rise and nothing can stop us from going

From piercing suns and storms - Our wings are shaken
To die is to believe - To meet our maker
And we're walking - if that's what it takes
We're moving on - We're coming home
It's the harvest - and the seeds we have sown
Are coming up - They're coming back

We're going up to rise up again - We're going up
We enter this new state of mind - They can not
Can not bring us down - cause the only way is up
We're going to rise and nothing can stop us from going

You turn it inside out - this quest for knowing
The rivers of emotions keep overflowing
