

You've led me towards temptation, guided me the way
Now you have forsaken me, left me to die
Dedicated my life in vain
Downtrodden and forced to the utter darkness
Divinity is just a utopia
You have dethroned me from my dominion
Woven with the strings that choke
Chanting my final song of doom
Beyond possessed thoughts
Approach the gate to your kingdom
The transformation is complete
You've made me a heretic
This life of mine will end in despair
All the blood on my hands
[Chorus:]
Feed my demon
Randomized, burned by lies

Fear my demon
Randomized, buried life, sodomy
Feed my demon
Randomized, burned by lies
Feed my demon
Behold all my mist and might
Guardian with a scourge
Arrival of blight and hearse
Silence will redeem my soul
Behold all my mist and might
Guardian with a scourge
Arrival of blight and hearse
Silence will redeem my soul
Allegiance and covenant I have no scorn
I will see my dawn calling wrath and blood
I will abase you - obey my lust and rage
Impaled by my prophecy
With my malice I will engulf you whole
[Chorus]
