

Me and We and I

The Frights

I shaved my head the other day I was scared
That I was losing my hair, it's a mess
It hit the ground, I can still hear the sound
Of the clippers on the back of my neck
I took a shower, stood for an hour
In the front of the mirror, what a freak
I put my clothes on, a hint of cologne
And brushed the last bit of hair off my cheek

I don't need to be so scared of what everybody will say
As long as I got me and we and I it'll be okay

I can't sit anymore, I'll be up in your face
I'll get up in your grill, I'll be all over the place
Long as I got me and we and I it'll be okay
It'll be o...

I closed the circle of the friends that I had
They only made me feel bad and alone
It felt so wrong and I knew all along
That I could make it alright but I won't
I used to skate now it's something I hate
I get so hot, I get so sweaty and I can't break my bones
There's too much riding on the van that I'm driving
To the kids that talk shit at the shows

Oh, I don't need to be so scared of what everybody will say
As long as I got me and we and I it'll be okay

I can't sit anymore, I'll be up in your face
I'll get up in your grill, I'll be all over the place
Long as I got me and we and I it'll be okay

I don't need to be so scared of what everybody will say
As long as I got me and we and I it'll be okay

I can't sit anymore, I'll be up in your face
I'll get up in your grill, I'll be all over the place
Long as I got me and we and I it'll be okay

As long as I got me and we and I it'll be okay
As long as I got me and we and I it'll be okay
As long as I got me and we and I it'll be okay
As long as I got me and we and I it'll be okay
As long as I got me and we and I it'll be okay
