

Bus Beat

The Front Bottoms

True love has no bounds
True love has no bounds

My baby likes that I look confused all the time
And I like her because she's got big black bags under her eyes
And we both say that we will concentrate but in this moment together
I have never felt so far away
You keep me numb and you keep me blind
Because my baby likes it when I can't make up my mind
To all the people that don't understand my way
I'm just living my life by what the graffiti say

It says to do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it

I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it

Oh!
You like doing nothing
I got nothing to do or prove
Sometimes things work out perfectly
When there's nothing to lose
Soon as this stash is empty I'm getting clean
Then I'm gonna start thinking serious about buying you that ring
And did you hear I'm taking lessons I'm gonna learn how to sing
Just like I promised I'm getting clean

I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it

I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it (Treasury my love
treasury my love)
I do it like that because that's the way my baby likes it (Treasury my love
treasury my love)

Too much of my time
(I've been wasting) too much of my life
(I've been wasting) too much of my time
Too much of my life

I've been wasting too much of my time with all the bullshit
I've been giving too much of my life to my emotions
I've been wasting too much of my time with all the bullshit
I've been giving too much of my life to my emotions emotions

I asked for patience I asked for strength
Whether in sickness or in flames
You gave me pleasure you gave me pain
And then you taught me they're the exact same thing

I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it

I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it
I do it like that because that's the way my baby likes it (Treasury my love
treasury my love)
I do it like that because that's the way my baby likes it (Treasury my love
treasury my love)

And you'll always be my girlfriend even after we get married
And no matter how sad I am gonna try to make you happy
And you'll always be my girlfriend even after we get married
And no matter how sad I am gonna try to make you happy
