

## Time

## The Gift

I wish that time could stop here  
To always have you with me  
Time is running  
Yes I know that one day time will end with this  
I wish that time could stop here  
To always have you with me  
Time  
Yes I know that one day time will end with this  
You were the one who told me  
You'd always be by my side  
I think that time is running  
I know that one day time will end with this
