

Baby, Come

The Hellacopters

You keep putting me down, baby come on
But can you get my feet from the ground, baby come on

But baby what goes on in your head?
When all around you the world is falling dead, baby come on!
Baby come on!

You've been playin' around, baby thats wrong...
And i keep hearing the sounds, but baby it's wrong...

But baby what goes on in your head?
When all around you the world is falling dead, baby come on!
Baby come on!

She makes her way.. Against the world...
She pays her way to be the very lonley girl, baby come on!
Baby come on...!

But baby what goes on in your head?
When all around you the world is falling dead, baby come on!
Baby come on!

Your going through with your life, baby thats wrong...
And i wont put up a fight, baby come on!

But baby what goes on in your head?
When all around you the world is falling dead, baby come on!
Baby come on!
Baby come on!
Baby come on!
Well baby come on!
Well baby come on!
Oh baby come...
