

# Fidget Brain

The Hoosiers

I'm a fidget brain  
I'm a fidget brain  
In a constant state of disarray, disarray  
I'm a fidget brain  
I'm a fidget brain  
In a constant state of disarray, disarray

If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace  
If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace

I'm a fidget brain (fidget brain)  
I'm a fidget brain (fidget brain)  
In a constant state of disarray, disarray  
I'm a businessman  
With a five year plan  
But my fidget brain got in the way, in the way  
(Disarray, disarray)

If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace  
If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace

If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace  
You hit me like a force five quake  
You shake me 'til I'm wide awake

There's only so much more my mind can  
My mind can  
My mind can

(You know you wanna  
You know you wanna)

If I could only get some sleep (you know you wanna)  
If I could put my mind at ease (you know you wanna)  
Then finally I'd have some peace

I'm a fidget brain  
I'm a fidget brain  
In a constant state of disarray, disarray
