

Over the Moon

The Icarus Account

How could I find another one
My heart's been set it's said and done
There's so many others in the world
But you are the one the only girl
For me

And I don't wanna fall in love
If it's not meant to be
But everytime I close my eyes
You are all that I can see
So I'm throwing everything in the air
Call me crazy but I don't care
'Cause I can really see this going
Somewhere

There's something about the Texas sky
That reminds me of the ocean in your eyes
We had our first kiss on a chilly night
The twenty-second
floor of the high-rise
It was sweet

And I don't wanna fall in love
If it's not meant to be
But everytime I close my eyes
You are all that I can see
So I'm throwing everything in the air
Call me crazy but I don't care
'Cause I can really see this going
Somewhere

Ooooooh somewhere
Over the moon

I know you've got your doubts
But I promise to wait them out
'Til you're over the moon for me
I'm gonna pray that you see that you see
What I see

And I don't wanna fall in love
If it's not meant to be
But everytime I close my eyes
You are all that I can see
So I'm throwing everything in the air
Call me crazy but I don't care
'Cause I can really see this going
Oh baby I can really see this going
Yeah I can really see this going
Somewhere...

Somewhere
Over the moon
